

Medical monitor mounting solutions that set new standards

Compliance with the most stringent medical regulations. Integrated cable routing. 5-year maintenance-free guarantee. Infection prevention is our priority. Our medical arms are clinically proven to be the best in the world for infection prevention, according to independent test results.

www.workimed.com

We meet the growing demands for hygiene and aesthetics in the medical environment, while protecting cables from damage and accidental disconnection. Smooth adjustment and handling with perfect positioning of monitors and equipment. Wide swivel and rotation range for optimum positioning of equipment. Maintenance-free operation during the 5-year guarantee period.

Thanks to our extensive experience, we know the challenges that healthcare professionals face every day. We can't help you with every task, but we're delighted to be able to help you mount your monitors safely, create an ergonomic working environment and make a major contribution to reducing the risk of infection.

Contact us for all your projects and we'll help you make the best choice.
