Small Folding Arm for medical keyboard and retractable mouse tray left/right, for mounting on wall track

This small medical arm with a short, foldable pivot allows you to fix, orient and adjust your keyboard and mouse perfectly. Its modern design has been specially developed for healthcare environments offering hygiene and cleaning in every detail. The medical arm simply attaches to the Din rail with the adapter and then adjusts to the rail and clamps with the two clamps. The weight supported by the tray should not exceed 5 kg.

Technical specifications: * Retractable mouse tray left/right
 * Total dimensions: 580 x 220 mm * Foldable keyboard and mouse tray
 * Colour decorative parts: RAL 5013 Cobalt Blue * Colour aluminium parts: RAL 9016 Signal White * Keyboard tray rotation: 10° right, 10° left * Wall track adapter included in this configuration * Warranty: 5 years
