Part Number: WM 227.267

Lowering and swivelling pole for height adjustable medical arms Length 150 mm

This 150 mm lower pole is attached to the underside of the height adjustable medical screen arms and allows additional accessories to be attached to the pole. It is the ideal complement when no space is available or absent. The diameter of this pole is 25 mm and allows all our accessories to be attached to it, including the 25 mm pole adapter or the 23 to 40 mm variable pole adapter.

Technical specifications:

- * Pole diameter 25 mm * Pole length 150 mm
- * Mounting underneath the height adjustable arms for display.
- * Weight supported max 12 Kg
- * Colour RAL 7024 Graphite grey * Warranty 5 years
