Height-adjustable medical arm, length 450 mm, for monitoring Philips Intellivue Séries, wall-mounted on a vertical sliding rail. Supported weight balancing range from 13 to 16 Kg.

Height-adjustable medical arm, length 450 mm, for monitoring Philips Intellivue Séries, wall-mounted on a vertical sliding rail. Supported weight balancing range from 13 to 16 Kg.

Full cable integration and infection prevention thanks to easy-to-clean surfaces make this arm ideal for emergency care areas. Height adjustment for ergonomic, customised positioning of the monitor. This 450 mm Horizontal Medical Arm with gas-lift height adjustment enables the monitor to be fixed, oriented and adjusted perfectly. It is coated with an anti-microbial agent for hygiene and cleaning down to the smallest detail. Its modern design has been specially developed for healthcare environments.

Technical specifications:

* Integral cable entry * Equipotential bonding * Optional Vertical Wall Slide Rail mounting, of which several lengths are available (480 mm - 720 mm - 960 mm - 1200 mm). These wall rails can be easily cut to size. All cables also run through the wall rail. (See Options on the following pages) * This 450 mm gas-pressurised Horizontal Arm simply slides into the wall rail, then adjusts to the required height and locks in place. It has a safety stop button for height adjustment, allowing the arm to remain in the chosen position. * The head of this arm has a 5" Plunge Plate and is compatible with Philips Intellivue Series monitors. * Suitable for monitors weighing up to 13-16 Kg. * Monitor tilt: 21° down and 20° up * Monitor rotation: 115° right, 115° left. * Arm rotation: 105° right, 105° left * Height adjustment: 438 mm * Total length: 531 mm * All our medical arms comply with CE, ROHS, Medical Grade, Regulations MDD 93/42 ECC. * Colour: RAL 5013 cobalt blue and RAL 9016 traffic white * Warranty: 5 years
